Introduction

On the second anniversary of the state-sanctioned killing of Jina Amini, her name remains a powerful symbol of the struggle for freedom, equality, and human dignity. In honor of all the victims of the Woman, Life, Freedom movement, Hengaw has compiled this comprehensive report on the lives lost in Kurdistan during this critical movement. This is not merely a statistical overview but a memorial to the individuals who sacrificed their lives for fundamental rights, justice, and human dignity.

Kurdistan, as a focal point of resistance, has endured systematic repression and violence during this period. The data presented not only highlights the courage and resilience of the people in this region but also underscores the widespread human rights violations they have faced. Each name on this list represents a story of suffering, resistance, and bravery, all of which must be remembered.

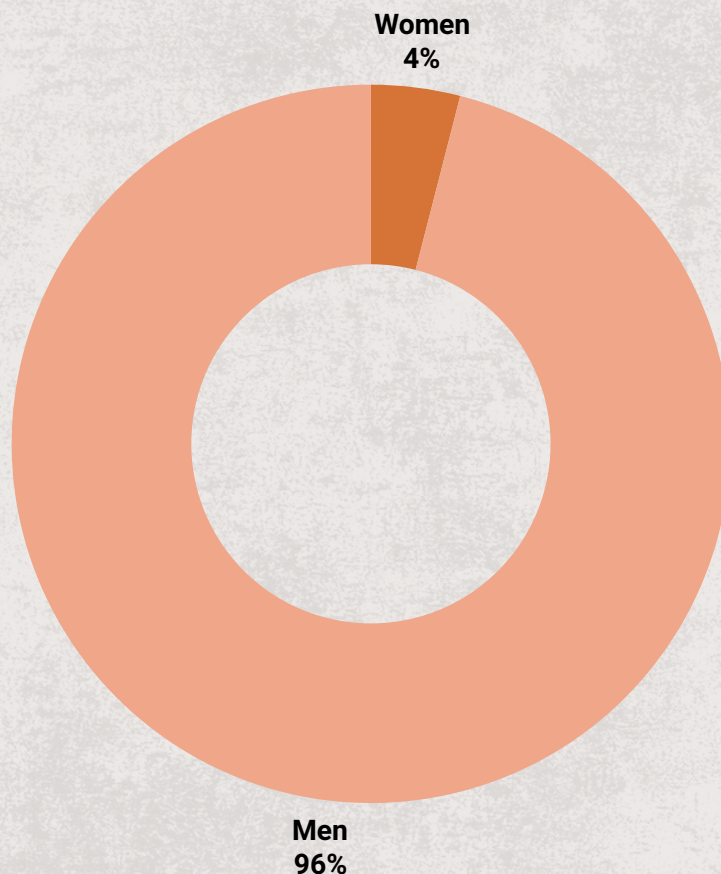

Documenting and recording these names is a vital effort to preserve the memory of those who sacrificed their lives in the pursuit of noble human ideals. This list stands as a powerful cry for justice and accountability, underscoring the necessity of recognizing and honoring the memory of individuals who, through their courage and selflessness, have become enduring symbols of resistance and resilience.

This report, compiled using verified and reliable local sources, serves as a call for justice and accountability. Hengaw hopes this documentation will further the quest for justice on behalf of the families of the deceased and help raise awareness about the severity of the repression faced by the Kurdish people.
